What means the most for the relatives in the rehabilitation process, including the cooperation with the municipality?	14.35	<hr/> Quality in the rehabilitation initiative, when it is difficult in particular? <i>Overlæge og specialist i pædiatri Lisbeth Agersnap Sørensen, Hammel Neurocenter</i> What do we do, when we deal with brain injury with multiple simultaneous disorders beyond the brain injury? And where there can may be insight problems/impulsive behaviour and missing abstraction ability, which can be further complicated by abuse-related behaviour? Lisbeth Agers Sørensen will tell which points of interest, which you should know.
10.55	Break	15.00	Inclusion of children and youths with special needs – you must act before the milk turns sour <i>Awaits presenter from the National Knowledge Center for Inclusion and Exclusion, UC Southern Denmark.</i> What makes a difference is whether the specialists actions seem inclusive or exclusive seen from a citizenship perspective? Based on a research project. Christian Quvang will make a number of suggestions on, what is particularly important to promote inclusion of children and youths with special needs. The examination shows among other things that inclusive processes involve the whole (local)environment around the child.
		15.20	End and thank you for this time!

Sessions

Session 1:

Coherence and quality in the rehabilitation of children and youths with brain injury. How?

A coherent initiative is of great importance for the quality in the individual course. Children and youths with acquired brain injury have many different contact surfaces, which crosses many sectors, administrations and professionals. Hear Municipality of Herning and Municipality of Holstebro respectively tell about, how they coordinate the initiative between the individual parts of the municipality to ensure the correct knowledge and initiative.

Henny Holmgaard, Skolekonsulent / hjerneskadekoordinator for børn

og unge PPR, Herning Kommune og Mette Kongsbak, konsulent fra Hjerneskaderådgivningen, Hanne Mejls, Familievejleder, handicap og psykiatri og Gitte Loftager, inklusionskonsulent, hjerneskadeteamet i Holstebro kommune.

Session 2:

Cooperation about rehabilitation of children and youths with brain injury. How does the municipality ensure quality on a small and complex area with focus on inclusion?

The municipalities' cooperation with the different specialised offers and subject professions are important for the appropriate effort in regard to children and youths with brain injury, How does the municipality cooperate with the offers that are in the area to ensure that children and youths with brain injury get a good rehabilitation process? Listen respectively to Municipality of Randers and youth mentor from Shattered dreams in the Central Region of Denmark and municipality of Roskilde and the Center of children and youths, the Capital Region of Denmark tell about, how they cooperate and what comes out of it.

Anne-Britt Roesen, forløbskoordinator for senhjerneskadede, Randers Kommune og Hanne Skovgaard Petersen, Ungemorator fra "Bristede Drømme", Region Midtjylland Lisbeth Harre, centerchef, Børneungecenter for Rehabilitering, Region Hovedstaden og Bodil Keiding, socialrådgiver og hjerneskadekoordinator for børn, Roskilde Kommune.

Session 3:

How do we get youths with a brain injury integrated into education, job and leisure?

How does the municipality work with getting youth back into education and work after they have been affected by a brain injury? What is crucial for it succeeding the best way? Which efforts are in play and which education and work term is used? Hear about project "Meaning and coping", which 4 municipalities and 9 disability organizations cooperate around to get citizens with cognitive impairments closer to the labour market and XX municipality tells about their effort to among other things getting children and youths with special difficulties included into education.

Maja Roesen, projektleder, Danske Handicaporganisationer og Maja Klamer Løhr, rådgiver, Hjernesagen. Afventer oplægsholder fra kommune.

Session 4:

From young to adult – the good transition?

What are the reasons that transitions often causes problems and what can the municipalities do to ensure a good transition for the youths to adulthood? Listen to Susanne Lihme, lektor, Metropol tell about the specific regulatory challenges that can make a good transition difficult, if you do not know them and listen to municipality of Hedensted tell about, how they (co)operate to create a good and coordinated transition from youth to adulthood.

Lektor, cand. jur. Susanne Lihme, Metropol og Pia Hermanstad, Afdelingsleder, Ungeenheden, jobcenter, Hedensted Kommune.

Session 5:

What can ChildRAP be used for – one child, one plan.

Get a short introduction to ChildRAP and its tools. Join in on discussing the experiences with the method in connection with the good dialogue with children and their family.

ChildRAP is a cooperation and communication method, which offers a professional framework for how the cooperation is optimised and information is exchanged between the child/ the youth and their family and the involved team of specialists and caseworkers. The method refers to everyone, who are part of an interdisciplinary and targeted effort around a child's need for specific effort through its development, also in relation the family's well-being and demand. It can be caseworkers in the municipalities. Involved specialist groups in the individual (special)schools, services as well as from hospitals and rehabilitation centres.

Caroline Verbeek, Specialkonsulent, Neuroteam.dk.
